It is our intent to make the link available to businesses, chambers, etc., in the Antelope Valley to assist in creating a supply chain of goods, services, talent, locally driven, for collaboration in innovation. An additional benefit would be: Encouraging citizens to purchase goods and services locally enhancing tax revenues for the building of city infrastructure.

A separate link for Aerospace and manufacturing will be established to help assist the high tech innovation businesses inter-connect. Also, it is intended to help companies, corporate real estate executive, site selectors, consultants, and brokers, to easily indentify other innovative businesses for regional collaboration.
