

This workforce solution was funded by a grant awarded under Workforce Innovation in Regional Economic Development (WIRED) as implemented by the U.S. Department of Labor's Employment and Training Administration. The solution was created by the grantee and does not necessarily reflect the official position of the U.S. Department of Labor. The Department of Labor makes no guarantees, warranties, or assurances of any kind, express or implied, with respect to such information, including any information on linked sites and including, but not limited to, accuracy of the information or its completeness, timeliness, usefulness, adequacy, continued availability, or ownership. This solution is copyrighted by the institution that created it. Internal use by an organization and/or personal use by an individual for non-commercial purposes is permissible. All other uses require the prior authorization of the copyright owner.

California Space Education Center

The California Space Education Center is a web-based research, education and workforce collaboratory that aims to increase interest and show relevance of science, technology, engineering and math (STEM) disciplines, expose students to consecutive steps in the STEM career pipeline, and provide opportunities for students and potential entrepreneurs to become involved in a community of participatory learning focused around STEM careers.
